**"75-10-1303. Decontamination standards -- rulemaking
authority -- samples.** (1) The decontamination standard for
methamphetamine inside inhabitable property is less than or equal
to 0.1 1.5 micrograms of methamphetamine per 100 square
centimeters of surface material unless a different standard is
adopted by the department by rule to protect human health. The
department may adopt standards by rule for precursors to
methamphetamine that are consistent with the standard for
methamphetamine.
        (2)   (a) The department may by rule establish the number and
locations of surface material samples to be collected based on
the circumstances of the contamination and acceptable testing
methods.
        (b)   In the absence of a rule described in subsection
(2)(a), at least three samples must be collected from the surface
material most likely to be contaminated at each property."
